

Ultra Digital[®] Specialty Color Cover Papers

Add some pizzazz to your next project with Ultra Digital[®] Specialty Color Cover Papers. These attention grabbing papers are available in four rich colors and are the perfect complement to HP Indigo's white ink technology. They offer the ideal background for seasonal, holiday and theme-type applications. The fibers are dyed in the pulping process with a special light fast pigment, resulting in a highly deep and uniform color that resists fading. Their bold appearance and ease of finishing are sure to open up new avenues for creativity and design, and their archival formulation ensures that they will last a lifetime.

They offer the crisp image reproduction, exceptional ink adhesion, uniform surface and consistently beautiful results that are synonymous with the Ultra Digital[®] name.
