

## Ultra Digital<sup>®</sup> Integrated ID Card Forms

GPA's Ultra Digital<sup>®</sup> Integrated ID Card Forms allow you to print full color/bleed, laminated, variable printed card products in **one step**. Like the rest of the Ultra Digital<sup>®</sup> family of products, the Integrated ID Card Forms are engineered and RIT Certified to perform flawlessly on HP Indigo digital presses. These forms provide a wide variety of design possibilities and allow for fast turnaround by eliminating the perforating and laminating processes. Both ID Card Forms are ideal for short-run, personalized marketing using variable text and images on an HP Indigo digital press.

GPA's Ultra Digital<sup>®</sup> portfolio contains a perfect blend of specialty and direct mail substrates to fit a wide range of results-driven applications.

For more information, samples of Ultra Digital<sup>®</sup> Pre-Converted Forms, a copy of our Ultra Digital<sup>®</sup> swatchbook or to request a copy of GPA's Ultra Digital<sup>®</sup> catalog, visit us online at [www.gpadigital.com](http://www.gpadigital.com) or contact GPA Customer Service at 800-395-9000.

## APPLICATIONS

GPA's Ultra Digital<sup>®</sup> Integrated ID Card Forms are perfect for Loyalty Cards, Punch Cards, Tickets, Passes, Membership Cards, Gift Cards, Coupons, Sale Promotions and Direct Mail.

## CONSTRUCTION

Ultra Digital<sup>®</sup> Integrated ID Card Forms are produced on Ultra Digital<sup>®</sup> 80# White Matte Cover in a 12" x 18" sheet size. The 2-Up and 4-Up designs have two (2) and four (4) double sided laminated cards per sheet. These forms include a unique embossing pattern in the margin which allows for trouble-free feeding and sheet delivery.

## EASY FINISHING

Ultra Digital<sup>®</sup> Integrated ID Card Forms are perforated and spot laminated on both sides. You can print variable printed cards with full bleeds and lamination in one step.

## TEMPLATES

GPA offers templates to assist in the design and layout of the Integrated ID Card Forms. These templates are available in PDF file format and can be emailed directly to art production. Contact GPA to receive these useful documents.
